

CAN YOU HEAR ME?

A German–Czech Radio Workshop on Crossborder Relations

Join us and produce your own czech-german radio show!

Spend an interactive week with other young participants from both sides of the german-czech border and create radio pieces such as features, reports or audio dramas about themes you´re interested in!

You can deal with historical or political issues

as well as with crossborder relations concerning music, arts or youth culture. Make up your mind and find your topic!

With the technical support of radio professionals from

ColoRadio you will explore different radio formats. There will also be freetime for fun and getting to know one another.

Interested? Wanna take part? – Apply now!

1–6 September 2013
